

## SALT LAKE DAILY HERALD

TUESDAY MORNING, AUG. 24, 1880.

THE DAILY HERALD is published every morning, Monday excepted, at Salt Lake City, by the HERALD PUBLISHING AND PRINTING COMPANY. Subscription price \$10.00 per annum, postage included; parts of a year at the same rate. To weekly subscribers, collection made by carriers, 25c a week. THE SEMI-WEEKLY HERALD is published every Wednesday and Saturday morning, at \$2.50 a year; six months, \$1.25, postage included. Postage outside the U.S. and Canada, extra.

It is a happy arrangement that the two peace people mentioned in our cablegrams this morning have fixed up for settling the grievance between Germany and France in regard to Alsace and Lorraine. They want the two nations to agree to leave it to the provinces themselves to determine which country they will belong to. Of course Bismarck will say yes to this proposition, which will deprive his master of so valuable a piece of territory.

THERE IS an interesting and queer case in Detroit that is puzzling the officials somewhat. Four years ago two men and a woman were tried for murder, and on the evidence of their sister, Mary J. Smith, were convicted and sentenced to imprisonment for life. Lately Mrs. Smith was stricken with an incurable disease, and being informed that her recovery was impossible, she declared upon oath that her testimony in the murder case was impossible, that her brothers and sister were innocent, and that she herself was the guilty party. Opinion is divided as to whether she lived first or last.

It is the general practice to judge of the wholesomeness of water by the quantity of organic matter which chemical analysis shows it to contain. Hence the opinion expressed by Prof. Huxley is somewhat startling. He says that "a water may be as pure as can be as regards chemical analysis, and yet, as regards the human body, be as deadly as prussic acid; and on the other hand may be chemically gross and yet do no harm to any one." That is, much organic matter is harmless, while the particular germs which produce disease may exist either in very foul water or in that in which the chemist can detect no impurities.

THE WASHINGTON newsgatherer who thinks President Hayes' visit will create a great sensation in this city, for the reason that it will be the first time a chief magistrate of the nation has been here, must be a new hand in the business. A bigger, better and in every way, greater President than Mr. Hayes, has been in Salt Lake, and created more of a sensation than a second or any subsequent presidential visit will do. The people will like to see President Hayes, and will show him the respect to which his high office is entitled, but there will not be the enthusiasm, the general turnout, nor the grand popular demonstration which characterized the visit of General Grant a few years ago.

A CERTAIN Galveston, Texas, man would be liked and made much of by newspaper reporters in any town of the country. Instead of raising a row when his name appears in the police court reports, and threatening to deliver reporters without ceremony, and demolish newspaper offices, the Galveston individual wants to appear in print. The News, of that city, misspelled his name in the police items, the other day, when the fellow called on the editor and said: "I want you to say in the paper that I am the man that got drunk and smashed a gas lamp. I want it to be understood by the voters that I was the man that took six policemen three-quarters of an hour to take to the lock-up. I want to be put before the public in my true light, or I'll bring suit for damages. That's what I got drunk for; it was to get my name in the paper so people would know I am duly qualified."

TELEGRAMS are going from San Francisco to New York saying there is "inside information" to the effect that the Comstock lode, along its entire length, was never looked more promising, and that big things are expected from it in the near future. In this way have the "deals" usually been made. It is not improbable that shortly some of the stocks will go up a little. They have been flat long enough all the holders are ready to sell. It is time for another ascent, but it may be questioned if anything great, either in the way of speculation or fact, will come from the Comstock. If the ore is there, which seems to be in doubt, some cheaper method for taking it out must be devised before large profits can be made. The shrewd manipulators of San Francisco may think they can take advantage of the recent break in Colorado stocks, and profit by the fall in Leadville, by revising the dropping interest in Nevada shares. There is plenty of money in New York, seeking investment in mines. It was flowing without cause or reason into Colorado, until the bottom began to fall out of that camp, and the check will continue only until there is a fair-looking prospect. That prospect will hardly be found on the Comstock, which has been wrecked and ruined so many. If a few more of the Utah mines were opened that it might be seen what is in them, this territory would be as likely to catch the flood when it sets in again, as any other section. But with the productive and profitable mines limited to such a small number, and so much more effort being made to sell than to develop claims, we can hardly expect a deflating boom.

ONE DAY last week a brief telegram announced the completion of the Cathedral of Cologne. It will be remembered that some months ago the HERALD published a short description of that monument of German art, together with an account of the difficulties under which it has struggled. It is admitted to be the grandest work of the gothic style to be found in the world. The Cathedral was commenced at the beginning of the thirteenth century, but the work dragged slowly, and was finally suspended altogether. In 1842, Frederick William, of Prussia, took the matter in hand, and organized the company that has completed the work, the necessary money being obtained chiefly from voluntary contributions. During the six hundred years that the cathedral has been in building, much of its history and other matters connected with it, that would be interesting and valuable, has been lost, among other things the name of the master architect. The cathedral is to be dedicated on September 4th.

## LATEST TELEGRAMS.

**Fever Victims.**  
Havana, 23.—For the week ending Friday last, forty deaths from yellow fever and four from small pox took place. Ten persons died during the month from contagion of the glanders.

**London Wool.**  
London, 23.—At today's wool sales the spirit was fairly sustained and rates were firm. Merino was rather against the buyers; 6,400 bales were sold, comprising Port Phillip, New Zealand, Sydney and Cape, in about equal portions.

**Accidentally Killed.**  
San Francisco, 23.—The Mexican gun boat Mexico arrived at San Diego yesterday from Magellan, en route to San Francisco, for repairs. On the voyage up, when off Saint Bartolome, Captain Miguel Azconegui was instantly killed by a gun rolling over him, while lying beside it.

**Burning a Child's Body.**  
New York, 23.—The police, tonight, arrested Mrs. Josephine Schneider, who keeps a candy store at 214 Christie street, and Augusta Wobbe, midwife, 184 Ludlow street, charged with burning the body of a stillborn child, whose birth was not reported to the health board. It is alleged that the child was born a week ago and that it was burned Wednesday last.

**Bad Indian Omens.**  
Chicago, 23.—A dispatch received from Fort Buford, dated the 19th, at military headquarters today, reports the indications unfavorable. A few days ago, the Uncompaghe, Sitting Bull's tribe, prevented a large body of hostiles crossing the Missouri to surrender themselves at the agency, and the number on the road under Big Horn or Broad Trail is very small. Rain in the face is still at the agency, with forty warriors, silent and sullen. Warriors are reported moving south while women and children are going north—a bad sign.

**Mexican Matters.**  
City of Mexico, 23.—Gonzales has an absolute majority in the Congress, and has nothing to do but to declare the result. It is expected Governor Codena will pronounce against the result upon the ground of fraud. He is governor of Zacatecas, and has a well armed and organized body of state troops. Government is watching him with considerable forces at San Luis and other convenient points, with Gen. Gonzalez in command. President Diaz gave a dinner to Minister Morgan. All the foreign ministers and consuls with their wives attended; also the cabinet ministers.

**Another Chinese Question.**  
Chicago, 23.—Inter-Ocean's Washington: Matters of importance have transpired for the consideration of the administration. It is not anticipated that it has made it desirable for Secretary Evarts to return to Washington before the departure of President Hayes for the west, and he will accordingly be here this week. It is understood that the President is anxious to conciliate the Chinese government in regard to the admission of the steamer *Ho Chung*, now due at San Francisco, in order that this may influence the Pekin government and accelerate the operations of Minister Angel and Commissioner Trevelock in their efforts to secure the desired treaty modifications. It is thought the administration, up to this time, has not had much encouragement as to the probable success of the commission. The new problem presented by the Chinese merchantmen would not be likely to help matters much with its attendant questions of discriminating duties and alien tonnage. It is reported that the administration is not adverse to straining a point in the construction of the acts of Congress governing the admission of Chinese vessels. The technical point now is, does China discriminate against vessels of the United States, her tonnage tax or tariff duties? This question has been propounded to the Chinese minister and the answer will no doubt be negative. This will be satisfactory, and the President will, to-morrow, issue his proclamation in relation to the *Ho Chung*. It is expected in the morning at the treasury department, where the correspondence on the matter has been carried on. It is regarded as satisfactory if United States vessels are not charged a discriminating tax as compared with vessels of other nations, or as the treaty provides, shall have the same privileges as the shipping of most favored nations. The statute, however, presents a different view of the case, and seems to call for the admission of our vessels at Chinese ports on the payment of no greater duties or taxes than are paid by Chinese vessels themselves. Of course, our consular reports will show and all our merchants service does, that our vessels pay no more than those of other foreign nations, and the whole matter of the proclamation hinges upon water of the construction to be placed upon the term discriminating duties, and a member of the cabinet reported today that it was to be such as would be most likely to conciliate China.

## FOREIGN.

**London, 23.**—The chief secretary for Ireland, in the House of Commons, today, stated that government did not think it necessary to ask for exceptional powers for the preservation of peace and protection of life and property in Ireland. They did not know he said, whether they can rely during the coming autumn and winter upon the common law. They do not fear a rising, but the condition of the country is precarious, and should necessity arise, government would not hesitate to summon Parliament in order to obtain additional powers; but they do not think occasion is likely to arise.

**Mitchell Henry** moved an adjournment for the purpose of raising a debate on the use of buckshot by police at Duggan's, which he strongly opposed. He said government was responsible for that action. It had authorized the use of buckshot as more humane than ball. The police only fired upon and charged the rioters when absolutely necessary. If that was the case, Duggan's would have been sacked. Sir Patrick O'Brien, liberal, and Finnegan, O'Donnell and Parnell, home rulers, protested against the use of buckshot. Parnell hoped Foster would record the order in the case of Duggan's, had the most unfortunate result.

**The Marquis of Hartington** said if the vote of supplies is finished by Monday next, the house can adjourn on September 6th, but all depends upon the progress of business.

**John Dillon**, home ruler, moved an adjournment in order to give Foster, an opportunity to explain his recent language.

**Dillon said:** I do not mind being called a coward and an impostor, but I object to the accusation of deliberate wickedness. I advise resistance to a law which government itself had called unjust, yet counted on to administer. I will repeat that advice to every land meeting in Ireland.

**Foster said** he had no explanation to make, but he adhered to every word he had uttered. Dillon had preached disobedience to a law which government was determined to uphold. Foster added: The recent horrible outrages in Ireland show the barbarism to which speeches like Dillon's excite the people.

**Mr. Dillon's motion** for an adjournment was negatived, 127 to 21. A dispatch from Gullatra says cavalry scouts report that Ayob Khan has moved out with his Heralds on the Kabul Ghilza road to oppose Gen. Roberts, and that a detachment of cavalry from the Candahar garrison, out foraging, were attacked by Ayob Khan's cavalry, but the latter were repulsed.

**The Times' Paris correspondent** confirms the opinion that M. DeFreycinet's new bill may lead to a ministerial crisis.

**The Times says:** Should the Irish peasants be tempted to use force against the law, and should a refusal to pay rents be supported by an organization of murderous terrorism, it will be the duty of the ministry, at whatever cost and however reluctantly, to apply to Parliament for the largest and most efficient repressive authority.

**Dispatches from Jellalabad** say the events of the past six months show the uselessness of Kurram fort for inducing the military or political situation at Cabul. The 8,000 troops there might as well have been at Malta. News from Cabul is scanty, chiefly because the tribes have closed in on our rear to fight over the stores left unguarded in the pile at post Hisaraka and Khujanki Khujanki.

**A severe fight** has taken place at Peswan and many were killed on both sides. At last account the Amer was slain at Peswan. Mueen Alim was daily preaching on his behalf. The whole situation in Northern Afghanistan was satisfactory.

**Constantinople, 23.**—The discontent of the Moslem population is increasing. An outbreak at Aleppo is feared and there is great agitation at Damascus and Diarbakir. The movement is political and not fanatical. The Porte is seriously anxious. The police have seized a Turkish translation of Khairuddin's Arabic works, showing the compatibility of constitutionalism. The lukewarmness of some of the ambassadors strengthens the reactionary party in resisting the settlement of Monte negro affairs.

**Valparaiso, 23.**—The British bark *Sybil*, from Astoria, Oregon, June 23, for Liverpool, was thrown on her beam ends in a storm, her topmasts away, and her cargo lost.

**Bucharest, 23.**—Colonel Voinescu has started on a diplomatic mission to Washington and Rio de Janeiro.

## DOMESTIC.

**Cheyenne, 23.**—General Grant passed through on his way home to Galena. He was given a grand reception, an immense number of people turning out to greet him. Chief Justice Seuer, on the part of the people, and General Brackett of the Third Cavalry on the part of the military, did the honors of the occasion.

**Unfortunate Rebels.**  
San Francisco, 23.—Tucson dispatch: Special advice states that Reyes, with his band, left Sonora on Thursday, and while marching towards Tubutama he was attacked by federal troops. It is asserted that six of Reyes' followers were killed and the rest routed. Last Saturday the same party had a fight with federal troops at Altar, and were routed and pursued into Arizona. They had a fight at Altar, and four rebels were killed. They were pursued to Wilbur's ranch, two miles from Arivaca, where they took refuge. Government troops surrounded the house and demanded the rebels, but the employees on the ranch refused. They returned to the border for instructions, saying they would return. It is the mean time word has been sent to Arivaca, and Deputy Sheriff Elliott, with thirty citizens, went to Wilbur's and to the rebels, eleven in number, prisoners. This afternoon Reyes was seen, accompanied by five men, coming to Tucson. United States Marshal Evans is now out with a posse of citizens to aid the Mexican authorities. It is believed the whole band will be captured.

## Railroads in the Black Hills—Ouray Ill.

**Chicago, 23.**—Inter-Ocean's special: Both Northwestern and Milwaukee and St. Paul railroads have now received permission from the Indians to lay track through their reservation in the Black Hills, and in the race for that section of country, will be seen some of the fastest track laying ever witnessed.

**The interior department** has been loth to allow railroads to run through the Indian country for experience has shown that railroads tend to make the Indians beggars where they have been thrifty and good citizens, and demoralize them in every way.

**An Unnatural Brother.**  
Reading, Pa., 23.—A great sensation has been caused throughout Berks County by the discovery of Benjamin Ziebler, a lunatic, who had been confined in a house in Albany township, by his brother, Jacob Ziebler, for twenty-seven years. He was chained to the floor in the small house built specially for him, and in a room only eight feet square, with only one window for ventilation.

**Secretary Sherman** has started for his home in Mansfield, Ohio, on Monday next the secretary will make his first campaign speech at Columbus, Ohio.

## NOTICE TO SUBSCRIBERS.

**PERSONS HAVING SUBSCRIBED** for the following Serial Books, and not having their Numbers complete, can obtain them by addressing us or calling at our office:  
History of Our Country.  
Spencer's History of the United States.  
History of the World.  
Shakespeare's Illustrated Works.  
Portrait Gallery of Eminent Men and Women.  
Art Treasures of England.  
Popular Educator.  
Byron and Moore Gallery, etc.  
J. W. Robinson & Co.,  
139 Main Street, up stairs,  
Salt Lake City.

**TO THE BONDHOLDERS OF THE UTAH** hereby given that the Trustees for the Mortgage of the Utah Western Railway Company have taken proceedings to foreclose the mortgage, an agreement to bid in the property for the bondholders and appoint a trustee for that purpose has been signed by a large majority of the bondholders.

Those who have not yet signed the agreement can do so by applying at the office of the Utah Trust Company of New York, at No. 73 Broadway, New York City.

**DEPOSITORS** please deposit their bonds with said Trust Company, to be used by the property for the purpose of the above mentioned agreement, and receive Deposit Receipts, transferable by endorsement, signed by said Trust Company.

Depositors will be requested (for convenience of the Trust Company) to leave their bonds for examination, etc., and receive their certificates the following day:  
E. F. BISHOP,  
Trustee of Mortgage of Utah Western Railway Co.,  
New York, July 24, A.D. 1880.

## PROPOSALS FOR BEEF.

**FOOT HILL INDIAN AGENCY,**  
ROSS FORK, IDAHO,  
August 16th, 1880.

**SEALED PROPOSALS WILL BE** received at this office until 10 o'clock a.m. September 16th, 1880, for the delivery, under contract, at this Agency of six hundred and eighty thousand (800,000) pounds beef cattle on the hoof, good healthy, merchantable steers and cows (no bulls or stags), not over seven years of age, at such times and in such quantities as may be required during the fiscal year ending June 30, 1881. The average gross weight of each head of beef cattle may be required to be not less than 800 pounds, and from December 1st to May 1st not less than 900 pounds. All cattle to be killed without food or water and to be delivered in good condition each delivery. A deduction of twenty per centum to be made for cows.

The first lot required to increase and diminish the above quantity five per centum, and to reject any or all bids. Proposals for any portion of the above quantity need not be for fifty thousand (50,000) pounds upwards, to be delivered at times specified in the bids, and may be tendered in any amount, and place above mentioned.

All bids must be accompanied with a certified check upon some United States Depository, or payable to the order of the Indian Agent, for at least five (5) per centum of the amount of the proposal.

Proposals for Beef Cattle, and will be opened at the hour designated in the presence of interested witnesses. Further particulars will be furnished upon application to this office.

## PILES! PILES! PILES!

**A Sure Cure Found at Last. No One Need Suffer.**

A sure cure for the Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of 25 and 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, treatments and Electrodes do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching (particularly at night after getting warm in bed), acts as a powerful, gives instant and painless relief, and is prepared only for Piles, itching of the private parts, and nothing else. Read what the Hon. J. M. Caffery, of Cleveland, has to say about Dr. Williams' Indian Pile Ointment: "I have used scores of Pile cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams' Indian Pile Ointment."

For sale by all Druggists, or mailed on receipt of price, \$1.00.  
**Henry & Davies, Prop's,**  
Cleveland, O.
